

On September 8th, Mexico experienced an 8.2 magnitude earthquake, the strongest to hit the country in a century. Among the thousands of homes and buildings destroyed in the quake was the main medical center of Chiapas State. Less than two weeks later, Mexico City, the nation's capital, was struck by a 7.1 quake. Two quakes struck Oaxaca on Sunday, September 24th, the first a magnitude 6.1 and the second a 4.5. FJC has compiled a list of organizations that are working to assist the relief effort in Mexico. If you are interested, we are happy to assist you in making a grant. This is just a sample of organizations and FJC does not endorse one over another.

If you would like more information on these or others, please do not hesitate to contact us.
